5 Cents A Year

The Proletarian

We remember the organization that is known as the "Japan Workers Union," a strong sign of the awakening of the "aboriginal races" of America, but we Japanese members of the Industrial Workers of the World urge you to join the Industrial Workers of the World, which organization is the only union of workers in America that stands for uniting the world of workers in the interest of the world, in the class alone.

It stands for the industrial unionism; instead of the craft system of knapsack in the workshops against the employing class.

One Union, One Union, One union! is the I. W. W. motto. Organizing workers into one union is no matter to us of color or differences of races, the I. W. W. recognizes only one race, the capitalists class.

Why should we need stand by a nation, when the Japanese capitalist and official disregards all boundary lines and markets wherever their interests demand it?

This fact was clearly proved during the time of the recent strike of the Japanese plantation workers in the Hawaiian islands.

Now is the time to leave your old school to read this. When the Japanese Workers Union affiliated with the I. W. W. on a 7-11-14 basis, they were on a larger and more national basis. They got the backing of the industrial unionists of America. The I. W. W. workers were backed by a more powerful organization.

The result was a victory for the I. W. W. The rebel workers were forced to give up. The Japanese workers were made to see the advantage of joining the I. W. W. for their own benefit.

Some workers have been in the habit of looking for help from their government. Some have been in the habit of looking for help from the Japanese government. Some have been in the habit of looking for help from the Japanese consul.

This is where we, the Japanese workers, stand and advocate. The I. W. W. is a revolutionary economic organization, and it is the only union of workers that stands for the good of the workers.

The I. W. W. has always been a union of workers for the workers, and it has always been a union of workers for the benefit of the workers.

The I. W. W. has always been a union of workers for the benefit of the workers, and it has always been a union of workers for the benefit of the workers.

The I. W. W. has always been a union of workers for the benefit of the workers, and it has always been a union of workers for the benefit of the workers.

The I. W. W. has always been a union of workers for the benefit of the workers, and it has always been a union of workers for the benefit of the workers.
