Echanges et Mouvement is, for a group of comrades sharing similar positions and in close contact with one another, a means of exchanging news on struggles, discussions and criticisms on all the struggles of all kinds carried out by those directly concerned for their own emancipation. It is therefore important that each recipient makes his own contribution to this end in exchange for what he expects from others.

CHANGES NEWS

International get-together - Echanges - 1982

As we have already announced, the meeting will be held on Friday 21st, Saturday 22nd and Sunday 23rd May 1982 at Osnabrück in West-Germany, a provincial town which can be reached by car and train. We proposed 3 subjects to be discussed (see Echanges nrs. 28 and 29) out of which one was finally chosen by a non-silent minority-majority:

The possibilities of manoeuvre for capital in the present period of restructuring, taking the car industry as an example.

allow everybody to contribute to the discussions we thought it was better to divide the subject in various points, which are not the only ones of course. Everybody can add what he thinks is (also) interesting.

1. Development of the output
2. Technological developments
3. Product developments
4. Organisation of work
5. Wage system/job evaluation and their evolution
6. Changes in union participation
7. Use of computers to allow better personnel management
8. Cut in wages and welfare
9. Changes in factory organisation
10. Changes in the international division of work
11. International cooperation between firms
12. Links between the car industry and other branches of industry
13. Investment policies
14. Output diversification
15. Changes in productivity

The main idea is to look for different factors on the relationship between work and capital. In our opinion the discussion would have to try to find the meaning of these different factors, their relationship with and their consequences for the class struggles.

Available from Mr. Chevalier, P.O. Box 85, 76300 Sotteville les Rouen, France.

On the U.S.A.:
- In the french monthly Le Monde Diplomatique of Dec., 1981 was a long article on the 20 million Spanish speaking people in the USA. A book published with the same theme (in english) is "The Life Story of the Mexican immigrant", a collection of autobiographic documents on the Chicanos.
- "The promise of the 80's" by John Zerzan has now been published as a special by Fifth Estate, 4403 Second Avenue, Detroit MI 48201, USA. Price $ 0,50. Origins and meaning of world war I, study of John Zerzan published in Telos, Fall 1981
"The genesis of the war is examined here in the light of the social question and its dynamics; the thesis entertained is that a rapidly developing challenge to domination was destroyed by the arrival of war, the most significant stroke of counter-revolution in world history. If the real movement was somehow cancelled by August 1914, it is clear that the usual reference (in this case Debord's) to "the profound social upheaval which arose with the first world war" is profoundly in error."

Copies available from Echanges.

We would like to ask our readers to give us the titles of essays, books and even films (if they exist) which support this thesis, especially from European historians. Zerzan mentions the following books in this context:
- V.R. Berghahn, Germany and the approach of War in 1914 (New York, 1974)
- S.D. Sazanov, Reminiscences, Fateful Years 1906-1916 (London, 1925)
- Pierre van Paassen, Days of our Years (New York, 1946)
- Norman Stone, one of the authors in The coming of the first world war, ed. by Laguer and Mosse (New York, 1970)
- Edmund Taylor, The Fall of the Dynasties (Garden City, N.Y. 1963)
- Arno Mayer, author of "Domestic Causes of the first world war" in the book Elements of Political Change, ed. by Brody and Wright (New York, 1967)
- F.L. Carsten, The Rise of Fascism (Berkeley, 1971)

- Arthur Rosenberg, Imperial Germany (New York, 1970)

So if you already had in mind to make up for all those times you planned to write something but didn't, here's your chance!

A group of workers from Nantes (c/o M.Besson, B.P. 3, 44230 Saint Sébastien sur Loire, France) would like to get in touch with all those who, like them, "regard self-organisation of workers in struggle as essential" and who "want to encourage everything that will help this self-organization of workers' struggles to end all forms of domination and exploitation" (from a text "which we regard just a platform, because we know we shall develop along with our ideas and actions"). The group has published:
- a pamphlet (in french) of 50 pages on the causes and consequences of capitalist automation
- its opinion (in french) about a meeting with various comrades and groups in Mayenne (see Echanges bulletin no. 28 on the T.U.L.) about the problem of the unions
- an article on the struggle against the expansion of the Frankfurt airport (the original text is in english "No soft landing in Frankfurt" and is available from Echanges.)
