The Socialist Party of Canada

(The Free Press, February 23, 1929)

The Socialist Party of Canada has been very active lately, as the Calendar of Meetings shows. The following list is given to the public to enable them to attend meetings in their own or other localities, since the Party has spread its influence over the whole country.

In every town and city, the Socialist Party has its headquarters, and is working for the advancement of socialism in every direction. The Party has a large number of members, and is actively engaged in the work of education, propaganda, and the promotion of socialist principles.

The Socialist Party is also working for the improvement of the conditions of the working class, and is striving to bring about a better distribution of wealth and power, and to establish a society in which every man shall have an equal right to the use of the earth's resources.

The Socialist Party is opposed to the existing system of exploitation, and is advocating the establishment of a new society in which the means of production shall be owned and controlled by the working class, and the products of labor distributed according to the needs of the community.
