THE LUMBERJACK

AN "INJURY TO ONE IS AN INJURY TO ALL"

ALEXANDRIA, LOUISIANA, THURSDAY, JANUARY 23, 1913

TRUTH CONQUERS

TO ALL THE CLANS OF TOIL

When Alexander of Macedonia entered Asia, he entered with the Grecian phalanges. A phalanx was a clan in battle array, its members were all brothers in truth and all were comrades. Alexander always presented a solid front. He faced its formal open. The first step on the plains was then back of him another and another and another, ten and eleven ranks deep, brother backing brother, row on row of compressed shoulder-blades that were beaten down or broken thru. That array was never swerved. It conquered all the known world.

WHY?

Solidarity is the magic word explaining all this wretched army’s might. Never was a single regiment allowed to fight the foe alone. Every member of that army, without exception, was always one army. A few soldiers neither asked nor expected Alexander to do it all. Each man took upon himself, as a man of the army, a share of back of phalanx, and conquered the World by sheer might of Solidarity.

ARMY OF TOIL

How you save the Macedonian Item! Stand out with folded arms and let the Club at Merryville be beaten down! All the boys there ask you to stand by their wives and children while they are on the battle line of life. Do your duty, and do it TODAY!

Read all funds and petitions to Chan slate, Secretary, Merryville, La.

Letter from John Hill.

"The situation at Merryville is very encouraging. The Company is making no attempt to break the strike. They believe in it, they believe it is right, they believe it is essential that it is right, and they do it. They know that they have only a half man ahead of the Christmas Bonus. They are all trying to get men here to come back, and they are no go. They are all trying to make men come back, and they are trying to fight the strike, and find out the truth, and can scrape money enough to force us, they say. An interesting feature to me is that public opinion is not so much against it as it is being, which is a far right out of the whole cloth. I have measured the force; it is a solid wall, 1.5 feet thick. Its top is composed of broken bottles, bits of glass, bits of tin, etc. In these men, in the good are gathered up the broken bottles and bits of glass, which have been told to talk. They are solid as the law, and can be smashed to bits, but they can be made to talk. These are solid as you can be well taught to man.

We have men in Merryville who are supposed to be officers of the band, who are nothing but tools of the American Lumber Company and the Santa Fe. They have proved a "capable command" and are now men who have been violated. They have discharged the old band and replaced them with a new band, and it is said they will not do this work, and are not going to. An example of John Kirby's "peace to serve as mere shell. As the example of Louisiana really is not the case, do they care anything about your good cause? If I appeal to you to do that, and we will stand divided for full power."

State of Texas, United States of America, Friday, the 13th day of December, 1912, in the United States District Court, Asphyxiate the industry."

Asphyxiate the "Stores people".

Also have your local.

The Strike Line neat.

The key cutters are still out and the Loomer Lumber Company operating pitifully hard of the Domain and Robinson Lamp Company, near Cairo, La., and are still lacking the force of strikes.

The strike is still on. On the strike, you strike against Rivers, the 11-hour day and the 33¢ per hour, and I hope that for your fighting! Before what do you know about cutting logs, heading your bark and encircling at all kinds of positions, in the rain and the cold and the summer’s sun, 10 long hours, each work, at only 14-1/2 an hour? The wages paid on this job range from $6.70 to $12.75 and on and you know, thank goodness, they are better.

Not a paper came in but without getting new subscribers all the time, as "The Lumberjack" cannot stay alive unless you workmen team up with us. The Secretary of the Western Federation of Miners, of F. & P. L., are already sending in individual unions and handle orders for the Lumberjack. The Press has the Southwestern Press of the Southern District, each of which is a local, of which the Chicago, St. Louis, New Orleans, and Chan slake, the last being Secretary of the Merryville Strike Committee and the work done in the work shop, and 67 cents in words, main, shotgun in, and the Loomer Lumber Company, on the job, profit first for a pittance, and 83-1/2 cents for John Henry, Roosevelt’s poke, world. Many of the prices are dropped because of the bad economic conditions, no help from ours of Cairo.

"Bust"! Give us more rebel like the Texas writer Ed.

Claiming they had no money coming to them, then the dummy among the faithful (7) became evident, to “lock up the company,” and the one set of views and the other set of views, and back and forth and back again.

At Merryville, the fact that the Company is making no attempt to break the strike. They know that they have only a half man ahead of the Christmas Bonus. They will not do this work, and are not going to. An example of John Kirby’s "peace to serve as mere shell. As the example of Louisiana really is not the case, do they care anything about your good cause? If I appeal to you to do that, and we will stand divided for full power."

MENININGITS VICTIMS IN BAGGAGE CAR

Dr. O'Reilly Scores Shipments of Patient from Other Parts

"Here is another sample of how people with communicable diseases are allowed to travel from one parish to another in this State," said Dr. W. T. O'Reilly, of the city board of health Saturday.

"We have just found two negro children that came in on a freight train from Atlanta who are now in the parish hospital with cerebral-meningitis. They came here with their father, who stated that they were sent to the hospital by a Dr. Jonus, of Reve Station, Allen Parish. They were found at the depot by Officer Parker, who had them taken at once to the hospital. The negro father is a tenant farmer, age 3 years, and Marie Tatune, aged 5 years.

"The children came to this city in a baggage car of the train, so some one must have known that they were out recurring with a communicable disease."

The above is clipped from the New Orleans, La., "Imo" and this from the Lake Charles Times, "American Press.""ST. LOUIS."" ""Ruin is the only place near Monroe that has not quarantined. The people there are all enlisted and are following Dr. Dowling. The state board of health at. Some places near this city, it is said, it would cost a Minnow man his life to step off the train, so rigid is the shot gun quarantine. Therefore to step off a lumber trust train is an act of treason and that from the "American Press" the Association's only known method of dealing with the life that are incited in the hells of the Association. How do you like it, Mr. At least American Citizen? And you, Mr. Lumberjack, who "won't join their club, even the Millions of workers by cause it admits Negroes to membership," how do you like it?"

"We intend to make our stand on the same damn platform, with out any interference from the Forest and Lumber Workers Union and foreign agents." This is the message of the Southern (S) District of the State to the Southern District.

"Many a man who talks like a war hero gets his meek little wife to interview the janitor every time he thinks it necessary to register a kick."

"There is a worse being than the scab: he is the man who refuses to aid in the fight and yet accepts benefits others bought to gain. To this breed of scabs we are waiting to see if the boys at Merryville win the fight before they will join the Union. They risk nothing and yet gain the game. They are the real enemies of the race, this jaded breed of men, who can only sit around on their hands, bemoan the working man, breathing, working men, bleed the working class, breed children to be sent into canvasing hells and cotton camps, waiting and watching while the soldiers fight, but never to stick to the unions with the feudal class that are overthrown. By Townsend and Pogany—the Siamese twins of capitalism economy, neither of which can live and the other die."

"The wage system cannot be mended; it must be ended."

UNION DEMANDS

WORKING CLASS POLITICS.

By Jay Smith

The politician to the average wage laborer is like the butcher to the cattle. The whole past of the wage
laborer has been listening to the walls of the politicians for hundreds of years and have
never received any benefit to speak of. Every wage
laborer is now beginning to be interested in his welfare
and that of his family. The walls of industrial slavery
grow higher and higher each day as wages keep falling
in every civilized country on the globe. So without the
abolish-

(or) the wage system there will never be complete freedom
for the workers. Every wage laborer is discontented with the
conditions that surround him. The prices of the neces-
saries of life are soaring higher and higher and he feels
that it is really necessary to live in a decent manner. The
way to start is a condition of slavery and to cast out those
who are in the habit of making laws.

There should be one class—the working class.

There is only one way left for the wage laborer. They
must learn to be their own master. This means that
do the most that is necessary to do on the job where they
work. They should think of having better wages for
themselves as well as for others. They should not ask
some new way to make this wage laborer work,

It is what the working class has believed that brought it
into this slavery. The working class must quit betting
and start making for the wage workers is in the labor
disturbances. So, the place to vote

All towns and camps to be provided with an up-to-
date check system, to prevent anything from prevailing
out the timber belt be wiped out.

To those who do not understand how the working class
are working together to overthrow

DEED OF A "WHITE MAN."

On last Wednesday morning Fellow Worker Sam Jones
(Colored) of Neame, La., wishing to go to DeRidder, La.,
in train No. 5, was too late and so arrived in train No. 3. The
train was already pulling out; he had no chance to board
the car reserved for colored people, so he was thrown out
of the Pullman, on the rear end of train, meant to go at
the last stop and go into the colored "coach" and pay his
fare, having in his pocket 45c.

No, it is what the C.K. calls its "Fast Mail," and the
fact that our President gave the railway station, which is four miles south of
Neame, it went through at speed, and Sam Jones could not follow

Just as the train, going at full speed, reached the town of
Lyndagin, C.C., it was trying to get to the rear end of

When No. 5 reached DeRidder, this brutal conductor
who noted for just such tricks as this, made a lying
report to the railroad authorities of the two workers, and

The conductor and the express men of the
C. K. & S. road and the "white supremacy" aristocratic
representative of one of the big newspapers of the city,
men, the railroad authorities of this system of working
out the working class, as they have never received any benefit to speak of. Every wage
laborer is becoming more and more interested in his welfare
and has never received any benefit to speak of.

Wages are down as low as ever, and for the right to speak our thought,
Without asking from Authority consent for aught!

just as much per man as that of his richer neighbor. That

The Lumberjack, Alexandria, La.

jack to me.

You are hereby notified to discontinue sending The Lumber-

You must not spend more and more money at the de-

If abuses are to be
destroyed, man must destroy them. If slaves are to be
"slaves", man must destroy them. If the colored are not
recognized, man must disregard it. If superstition is driven
out, the workers must organize at the source of production and
start lawmaking for the wage workers is in the labor
disturbances. So, the place to vote

As it is against the capitalistic laws, even, to throw any
one off a moving train, even if it is in a poor hash-worker, it
looks like Sam Jones was not the pocket book of the
C. K. & S. road and this "white supremacy" aristocratic
representative of one of the big newspapers of the city,
men, the railroad authorities of this system of working
out the working class, as they have never received any benefit to speak of.

The ECONOMIC ARGUMENT FOR INDUSTRIAL UNIONISM

The following article is by Vincent W. Doane, in the issue of the L. W. W., and is taken from "Industrial," our October issue, published by the L. W. W. It is printed here in its entirety, as the author has expressed the wish that it be read, thinking all of the time of the industrial union movement. The views expressed by the author are his own and not necessarily those of the L. W. W., or any of the officers, editors, or workers who could use it if it was available in L. W. W. periodical.

Principles

The subject of industrial unionism today is making the recognition of the need for such a principle an increasingly pressing necessity. The opposition to it is more or less well organized. The opinions and arguments of the opposition are of no avail to us. We say that the industrial union movement is the only way of meeting the conditions under which we are living, and that it is the only way of making the industrial worker the master in his own industry. We know this, and we are sure that the industrial worker knows it. The opposition to it is merely defensive. The opposition to it is a reaction against the tremendous power of the industrial worker which is coming into existence.

The opposition to it is made up of the industrial worker who is not yet fully aware of his own power and his own possibilities. The opposition to it is made up of the industrial worker who is not yet fully aware of the fact that he is the only person who can save the industrial worker from the exploitation of the capitalist class. The opposition to it is made up of the industrial worker who is not yet fully aware of the fact that he is the only person who can save the industrial worker from the exploitation of the industrial worker himself. The opposition to it is made up of the industrial worker who is not yet fully aware of the fact that he is the only person who can save the industrial worker from the exploitation of the industrial organization.

The opposition to it is made up of the industrial worker who is not yet fully aware of the fact that he is the only person who can save the industrial worker from the exploitation of the industrial union. The opposition to it is made up of the industrial worker who is not yet fully aware of the fact that he is the only person who can save the industrial worker from the exploitation of the industrial union.
