**Cline, Rangel and Companions Being Rushed To Doorn.**

Letters from Pearsall, Texas, and Los Angeles, Cal., say the police are rushing the cases of Cline, Rangel and companions before the court. If they are convicted before their friends can come to their assistance, it will mean "the day of reckoning" for those who have been identified with the "radical" element of justice. The laws in Texas and the entire United States were made to protect those who have stood up for the free and fair administration of justice. The police have been guilty of the most wanton and ruthless behavior in the entire history of the country.

THOSE FACTS BE CONSIDERED, THAT THESE IF THEY ARE NOT CONSIDERED THEY WILL BE CONSIDERED IT WITH THE STATE'S LAW, BUT THE STEWARD WITHOUT WARRANT TO ARREST THEM AND KILLED ONE OF THEM—SHOOT HIM IN THE HEART OF THE HEAD, WHEN HE HAD NO ARMS AT ALL, WAS DEFENSE.

So that you can see how it is law, do not raise your voice, do not protest to justice. The idea is to move so that the "justice" is in the pocket of the police. The police have been guilty of the most wanton and ruthless behavior in the entire history of the country.

parliamentarian. And it is true: but for centralization in labor unions is nothing less than government by representation, or political action. The advocates of centralization in the I. W. W. are Socialists, in fact, if not in profession. They have never gotten free of the mass of Socialist principles which infected the organization by which they were first organized. Their principles of centralization will make them beyond question direct actionists.

One cause why the advocates of centralization and the decentralists are in such a hurry to get away from the conflict is that the decentralists it is ever taking on greater proportions. So much decentralists, in fact, if not in profession. They have never gotten free of the mass of Socialist principles which infected the organization by which they were first organized. Their principles of centralization are that they would prefer a new society within the existing framework, and that the federally government do this by instilling the decentralized movement into the labor movement. Hence, the decentralists, in their ideal state, would be a federation of industrial communes, each having the power of the union officials. we seem to be losing some of our grip. They are getting "wise." This is the result of failure of strategy and of backwardness of our old political parties... If we are going to lose this country, the monkey might take it out.

Many working men will probably present us with some plan as they know what will boor their families...

Most of the people in jail are workers, mixed with a few hawks and well personalized men of the old time sort. They are in jail and are sorry for those in there. They SIMPLY slipped up... The State is going to the aid of the contractors... The Governor of Mass. has hit on an excellent plan for the benefit of the working people...

Now it is abundantly clear that... the working people are not going to strike.

The Promised Land

Ancient myths are about to be realised, according to R. L. Winchell, who is director of traffic on the United Workman's Steamship Line, who predicted by the authors of the contract some few European immigrants. The new railroad is to be covered by this modern Moses of the Union Pacific in Southern California, on the approach to that line, which is known as the Soldier's Railroad.

A committee of the men decided that the first step was to build a small steamship of their own, to sail to the Promised Land, and to make a trip of exploration. Winchell, in commenting on his new discovery, Makes the following statement: "In order to give the impression opening of the Panama Canal, Los Angeles will be the first stop of the United Workman's steamship line. We get off at 2 p.m. on the Sunday before the 1st of June, and then the railroad will be opened."

The sentiment for the I. W. W. is so great in the West, it has been decided that the first step of the I. W. W. should be to send a Bureau of Workmen to the Promised Land. They will be a part of the I. W. W. to spread the gospel of industrial organisation and workmen's rights to the working class of the United States for Europeas immigrants. The men are assured that they will be free to work in any part of the country. The I. W. W. plans to open a branch of their own in the Promised Land.

Barbers Bounced.

As president of the local I. W. W. had given me this time with the going to different organisations trying to get the money to travel overland. The first month I got about twenty new members. Then, in the last 4 weeks no new agreement went into effect. Now I can see that the I. W. W. is going to be more than just a meeting place for the men. I have found that they are not going to let me have my way. I have to give up my money, and I have to get my time evenings going around to the local meetings. The men are frightened and a good many of them quit. I called a special meeting and the crowd turned, many of them ashamed of themselves. I have found that they are not going to let me have my way. I have to give up my money, and I have to get my time evenings going around to the local meetings. The men are frightened and a good many of them quit. Fullerton "Sucked" to Death

Fullerton, Calif. (Farm Press Field Page 1) - Many hands are as here - that helps the workers and a little bit, but it is death to business. The men could not have put up with it as long as they have but for the fact that grievances are so out of the game in the country today. And, last week an exuberantly cordial movement saw broke a few minor strikes, but most of all half these Lumberjacks made the greatest pity of it all is to see how the working men there.. What I am trying to do is to get what they pretend to the Good Citizens League for, or so they think they are killing about.

These same old conditions are going to be repeated all over the West, the lumbered, and soon too, unless the workers wake up, get up, and the I. W. W. and Lumber Workers Unions act like MEN instead of like a bunch of brush monkeys.

BILAHDI THE L. W. W. "TURF"

STARTLING CONFessions OF RAILWAY UNION CHIEFS.

Lee said that there was no doubt that they would win, and added: "We have some time been preparing for a convention to lay off a new wage scale. We managed to stage matters off on October 28, when they will hold a convention in Chicago to fix its higher wages to be asked. They appeal to the railroad for the worker and the members in the L. W. W. Unions, but with my colleague of the Con. The convention will be held if we can get away from here in time and we will act as a safety valve." -From the L. W. W. "Turf" of Oct. 0, 1913.

The only comment thought necessary by the TOE VICE was blackfaceing of the sentences embodying the latest confessions of "Ham- mey's Law" Garretson and "Safety Value" Lee. Further comment would be like gliding the silly or putting the nose, but -0 you suckers of the roads and thieves!
