WILL YOU EMIGRATE TO MEXICO.

You and your fellow workers have just been forced to go out on the picket line against the pay of $1.25 per day. You are going to leave your homes and your friends and many of you will be willing to work for still less wages, as is always the case after a panic.

Yes. And did you know that you are going to be forced to go out on the picket line against the pay of $1.25 per day. You are going to leave your homes and your friends and many of you will be willing to work for still less wages, as is always the case after a panic.

Mexican silver is worth about 60¢ on the dollar, paid. Wages 12-1/2¢ per hour for common labor. How do you like it? Are you going to Mexico? Are you a capitalist? Or are you a working man? You have already taken over five hundred million dollars out of your pockets in this country and there could be no less than 150 million dollars' surplus profit on labor? How much longer are you going to stand for this kind of thing?

No. No. You are not going to stand for this kind of thing. You are not going to go to Mexico. You are not going to leave your homes and your friends. You are not going to work for less wages. You are going to stay where you are and fight. And no matter how soon the slumbers of the 12-1/2¢ are over, you will be back again in organizing this country. And then the 12-1/2¢ will be for the railroad boys who work for 12-1/2¢ per hour, and the miners, and the farm hands, and all.
THE VOICE OF PEOPLE
(Formerly "The Lumberjack")

Choice, from Buffalo up to San Leoks and Duluth.
An instance of how the Morgan-Rockefeller combine, which controls the U.S. Steel Corporation, the Steel Trust, with its employees, affected of over $10,000,000,000 the lake business, its shipments of ore alone from the Lake Superior region in 1912 amounted to about 26,000,000 tons, or $50 per cent of all the shipments from that region the year stated.
The U.S. Steel Corporation owns and operates docks, elevators, etc., of a tonnage of 209,034 gross tons. In 1912 a total of 9,276,479 gross tons were handled in its six principal docks.
The Corporation also owns 238 steamers and barges. Furthermore, to show the intimate inter-relation of industries, we may mention in passing that the same corporation owns 1,200 houses, 47,445 cars and operates 1051 miles of railroad track. It has in sight 2,400,000 tons of iron ore. It owns over 240,000 employees on its payroll at present. Its assets amount to $17,755,600. It generally carries about $35,000,000,000 in any year. Dividends paid by the corporation since 1901 have averaged $56,000,000 yearly on its preferred stock and common stocks. It requires something like $125,000,000 to fight such enemies. It requires something more than the workers can possibly afford to pay. But that is not the point. The pyramid only smile at childishness. But they shall not be broken. If you can purchase one hundred copies, and some locals could read the paper. The paper is easily sold a thousand or more. No profit is made. All the author wants is the wide dissemination of the pamphlet.

So there comes to our desk one of the most notable contributions to radical literature that has appeared in some time. Not that the ideas presented therein have not been covered by other writers in the past, but this is the first time that an effort has been made in the English language to make accessible to the wage-slave at a nominal cost the value of Sabotage in the fight for life. Cleary and accurately represents the different forms of sabotage and the many different ways that sabotage can be applied.
The author, Fredonia Stevenson, Editor of the Volcanic, is the product of a long and arduous labor, both in the Industrial Worker, to the attention of the revolutionaries in their country.

BOSSES have a thousand and one, and the point of such an angle is steel-jacketed, able to penetrate the rhinoceros hide of capitalism. Sabotage is the method that will make the boss aware of his heartstrings.

In the most adumbrative explainer it can excite the most terrible hatreds.

The price of this pamphlet is: Simple cover, 35c; one hundred, 25c. Every local can use one hundred copies, and some locals could easily sell a thousand or more. No profit is made. All the author wants is the wide dissemination of the pamphlet.

The data gathered for the National Women's Trade Union League recently will be issued by us under the name of "Women in the Labor Movement." But neither would they be satisfied with that. The workers who are at the bottom of the pyramid only smile at childishness. But they shall not be broken. If you can purchase one hundred copies, and some locals could read the paper. The paper is easily sold a thousand or more. No profit is made. All the author wants is the wide dissemination of the pamphlet.

The data gathered for the National Industrial Union of Marine Transport Workers is to be published as a little pamphlet entitled "SABOTAGE," the title of which is self-explanatory.

This pamphlet contains a catalogue or organized sabotage of the Marine Transport Industry does not open the eyes of the Marine Transport Workers, we do not know what will happen.

The average Marine Transport Worker turns his wrath on the bullying underlings with whom he comes in contact. He cursors are not the government. The government is the slave of the people, both big and small.

Saloa Keepers watch dead Mexican laborer Remove hands from the body before making the world's greatest labor masterpiece. The biggest labor masterpiece has been made by the death of飞田田. Stew. An experienced labor leader was found murdered and his body was placed in a barrel. It is alleged that the laborer was beheaded and his body was used to make a labor masterpiece.

"A postcard from the labor leader's home, saying "To my friends, I am making a labor masterpiece."

"I am making a labor masterpiece."

The labor leader was a prominent labor leader in the West and was known for his leadership in the labor movement. He was known for his dedication to the labor movement and his commitment to improving the lives of workers. The labor leader was also known for his wit and his ability to make people laugh. He was a beloved figure in the labor movement and his death was a shock to everyone who knew him.

The labor leader's death was followed by similar deaths of labor leaders across the country. The labor movement was in a period of great upheaval and change, and the deaths of labor leaders were seen as a symbol of the violence and chaos that was spreading across the country.

"I am making a labor masterpiece."

The labor leader's words were seen as a call to action, a call for workers to stand together and fight for their rights. The labor movement responded to the labor leader's death with a wave of protests and strikes, and the labor leader's words became a rallying cry for workers across the country. The labor leader's legacy continues to inspire workers today, and his words are remembered as a powerful reminder of the importance of standing together and fighting for justice.
